

bzip and libbzip

2 How to u

each return value. The first five actions are normal and not intended to denote an error situation.

BZ_OK The requested action was completed successfully.

BZ_RUN_OK

BZ_FLUSH_OK

BZ_FINISH_OK

In **BZ_compress**, the requested flush/finish/nothing-specific action was com-

to next

Provides more input and/output buffer space for the library. The caller must ins-
 input and output buffers, and uses `BZ_2_DECOMPRESS`.
